

THE SOUTH AFRICAN EARLY EVENING SKY LATE JUL / EARLY AUG 2017

To find e.g. stars in the east,
face east and turn the map
so that **EAST** is at the bottom.

Circles show the position of the Moon

- The Moon this month:
- Jul 23rd: new moon
 - Jul 30th: first quarter
 - Aug 7th: full moon
 - Aug 15th: last quarter

The Sun rises in the east
and sets in the west
